ARTFOIL

ARTFOIL

A hot foil transfer solution that broadens the capabilities of the M40 Deep Vice* and expands your market.

** for others machines, consult us*

It's brilliantly simple.

The ArtFoil is designed to fit the M40 Deep Vice.

The complete solution is ready to use: no need for additional training on neither machine nor software.

At the cutting edge of innovation.

The ArtFoil is a unique solution based on an innovation patented by Gravotech.

Easily switch from hot foil to engraving in seconds.

You are evolving, so is your M40.

ArtFoil allows for new revenue streams using the same machine. Engrave anything from plastic to stainless steel, and also hot foil anything from gift boxes to leather and wooden gifts.

Hot Stamping Made Efficient.

The ArtFoil eliminates expensive dies and costly set-up times, making even single item hot foiling cost effective.

The ArtFoil kit includes:

- Hot Spindle
- Easy on/off Spindle Assembly
- Product Support Table
- Foil Rolls Dispensers with Clamps
- ArtFoil Transformer
- Interface box
- Gold Foil Roll
